Mass Spectrometry Imaging Focus on MALDI Imaging

ONLINE COURSE: \$250

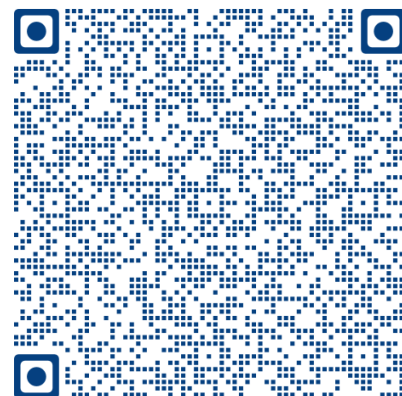

This course will cover the basics of Mass Spectrometry Imaging and then focus on MALDI imaging including **sample preparation, on-tissue digests and derivatizations, and data analysis.**

8 MODULES

- 1: Introduction to Mass Spectrometry Imaging Fundamentals
- 2: Ionization Methods and Mass Analyzers
- 3: Mass Spectrometry Imaging Pipelines and Molecular Classes for Imaging
- 4: Sample Preparation
- 5: Identification by Mass Resolution and Tandem MS
- 6: Data Analysis
- 7: Specialized Methods in MALDI Mass Spectrometry Imaging
- 8: Multimodality Imaging with Mass Spectrometry Imaging
